STATE OF INDIANA

DEPARTMENT OF LOCAL GOVERNMENT FINANCE

INDIANA GOVERNMENT CENTER NORTH 100 NORTH SENATE AVENUE N1058(B) INDIANAPOLIS, IN 46204 PHONE (317) 232-3777 FAX (317) 232-8779

October 15, 2008

The Honorable Gary R. Hensley Dearborn County Assessor 215 West High Street, Room 203 Lawrenceburg, IN 47001

Dear Mr. Hensley:

RE: 2008 Annual Adjustment Ratio Study

The Department of Local Government Finance has reviewed the information and data you originally submitted for the Dearborn County 2008 ratio study as well as the supplemental information. The Department hereby approves the ratio study results based on the study presented without verifying the actual data in order to allow the preparation and delivery of the real property list to the County Auditor pursuant to IC 6-1.1-5-14.

Further studies may be warranted in order to ensure that the annual adjustment process was followed. Additionally, we would encourage you to use all possible sales, which lend greater validity to the sales ratio study.

In conjunction with our Data Analysis section, please continue to ensure your sales disclosure file database is compliant. For assessment year 2009, your 2007 and 2008 sales disclosure data files must be compliant with the rules of the DLGF.

If you have any questions or concerns, please feel free to contact Barry Wood, the Assessment Division Director, at (317) 232-3762 or by e-mail at Bwood@dlgf.in.gov.

Sincerely,

Cheryl A.W. Musgrave

Commissioner

cc:

Barry Wood, Assessment Director

Summary of Dearborn County 2008 Annual Adjustment Methodology

The sales comparison method was used to adjust the assessments in Dearborn County for 2008. The assessments were derived using the Real Property Assessment Guidelines for 2002-Version A. The sales used for the 2008 annual adjustments were from 2006 and 2007. The number of sales of commercial vacant property and commercial improved property were insufficient for Center Township so the time period for sales was expanded to include 2005 sales. The number of sales of commercial improved property was insufficient for Clay Township so the time period was expanded to include 2008 sales that were available. The number of sales of commercial improved property was insufficient for Kelso Township so the time period was expanded to include 2004 and 2005 sales. The number of sales of vacant industrial property was insufficient for the entire county so the time period was expanded to include 2005 sales.

The land base rates and neighborhood factors were examined in each neighborhood and property class. Neighborhoods with an insufficient number of sales were compared to similar neighborhoods. The criteria for comparison were geographic location, similarity of land size and improvement type and age, and any other factors deemed relevant. The neighborhoods with an insufficient number of sales were then adjusted in a similar manner to those with sufficient sales to which they had been compared. Comparisons were also made between adjoining neighborhoods and townships to insure the continuity of land base rates and neighborhood factors.
